Mid Sem Evaluation from the Supervisor

In this section, you will attach your evaluation sheet from your manager/supervisor from your company with marks and grades given to you.

Problem statement

This section needs to be comprehensive now. After your outline, you might have added more content while refining your problem statement. You might have a few ideas from literature review and gap analysis. You can use that to build a few pointers in this section.

References and Studies done for the project

The section should have your literature review and your studies you did for the project. You can include a summary of learnings or take aways from the papers you read. You can do a comprehensive study of mentioned points and mentioned them here.

1. Need understanding
2. Existing solutions
3. Gap analysis

Key Components of the project.

This section should have key components such as explanation on data, evaluation metrics, technologies you will use etc.

1. Data Strategy
2. Evaluation Metric
3. Technologies decision

Solution Architecture and Design

Explain in high level how a solution will be built and integration of it.

Tip - Search on google how to make it , if you dont know it

Experiment Logs & Decisions

Write a story about your approach and results.

Include a table with results and experiments
Baseline results , code snippets if any
Experiment 1 - results etc.

Detailed Plan of Work

Sr.No.	Tasks	Expected date of completion	Names of Deliverables	Status
1	Synopsis	25-Oct2021	Studentid_Synopsis.doc	Done
2	Study Phase: Literature review, existing solutions, and comparisons of existing solutions if any	08-Nov-2021 15-Dec-2021	Literature review.doc·	Done
3	Solution Design	15-Nov2021	Added to report	Done
4	Development Part 1	10-Dec- 2021	Baseline model development with pre-trained model	Done
5	Mid Sem Review	14-Dec-2021	MidSem_Review.ppt	Done
6	Feedback Incorporate	20-Dec-2021	Code/doc	Done
7	Development Part 2	25-Jan- 2021	Code files	Done
8	Final report	26-Jan-2021	Final_report.doc	Upcoming

Key issues and obstacles

You can write a story here and then have few points, such as :
1. Data quality is a big issue
2. Privacy concerns etc.

References

1. Reference of paper you read
2. Link to website/blogs you read
